

Integrated PMS systems

Revision: February 2021

Listed below you will find the systems currently integrated with our software certificated, with technological agreements and/or standard drivers.

All product names, logos, and brands are property of their respective owners. All company, product and service names used on this document are for identification purposes only.

Our integrations support the same features as the original devices (PBX, IPTV systems, etc.) and the ones that are supported by the PMS software.

This document may not be up to date on the date you are reading this document. There might be constant updates due the software industry nature. In case that your PMS is not listed below, always check the compatibility with our sales department.

Property Management System (PMS)

MANUFACTURER	COMPANY NAME	PMS SYSTEM
	ACIGRUP Hospitality Software S.L.	Hotel PMS ACIHOTEL https://www.acigrup.com
